

# SUPPLY CHAIN MANAGEMENT AND LOGISTICS, M.S.C.M.

## Degree Requirements

The Master of Supply Chain Management and Logistics program is a hands-on degree with a practical component, which gives students the skills and knowledge required to work professionally in supply chain management and logistics fields.

## Boot Camps and Workshops

Mandatory preparatory boot camps and workshops help develop the necessary skills to succeed in the Master of Supply Chain Management and Logistics program. The Asper School of Business MSCM has three regularly offered pass/fail auxiliary courses (X):

- SCM 5110 (Math Boot Camp) – online number crunching primer (challenge exam option available).
- MIS 5120 (Information Technology Boot Camp) – online course that provides you with the basics of common productivity software packages used in the business world, with particular focus on Excel (challenge exam option available).
- IDM 5120 – develop the “soft skills” you need to advance your career, such as business etiquette, networking, resume-building and behaviour-based interview skills.

## Program Core

The following are the courses required for degree completion. For a full list of required courses for each program stream, see the program’s supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>).

## NOTES:

1. All courses are required, unless the student is eligible for an exemption as per the policy detailed in the program’s supplementary regulations (<https://umanitoba.ca/graduate-studies/supplementary-regulations/>).

## Co-op Placement or Applied Project

The Master of Supply Chain Management and Logistics degree includes a 4-month graduate co-op placement or applied project in which students gain hands-on experience in the supply chain management field. These placements are made possible by the Stu Clark graduate school’s network of connections within Manitoba and across Canada.
