

COMPUTER SCIENCE - PHYSICS & ASTRONOMY JOINT, B.SC. HONOURS

Computer Science - Physics & Astronomy Joint Honours Entrance, Continuation and Graduation Requirements

The departments of Computer Science and Physics & Astronomy offer a joint Honours program for in-depth study in both Computer Science and Physics & Astronomy.

To enter the Joint Honours Computer Science - Physics and Astronomy program, the student must have a minimum grade of "B" in each of PHYS 1050 (or "B+" in PHYS 1020), PHYS 1070 (or B+ in PHYS 1030), MATH 1300, MATH 1500, MATH 1700 (or any equivalent), COMP 1010 (or COMP 1012) and COMP 1020 and a minimum DGPA of 3.00. Students must complete a minimum of 9 credit hours per term in each Fall and Winter term.

To continue in the Honours program, students must maintain a minimum DGPA of 3.00, complete a minimum of 9 credit hours during each Fall and Winter term (or equivalent for students in the Co-operative option).

To graduate with the Honours degree, a student must obtain a minimum DGPA of 3.00 and present a minimum grade of "C" in each course that contributes to the degree.

Honours Co-operative Option

A co-operative education option is available for Honours students. Students should refer to the Co-operative Education (p. 2) for further information on the Co-op programs.

The course, grade requirements and minimum DGPA requirement for entry and continuation in the Co-operative Option are the same as that for regular Honours program.

Students are required to complete all the first and second year courses in the program grid before their first co-op work term.

Degree Requirements

Joint Honours (Including Co-operative Option if Selected)

| Course | Title | Hours |
|---------------|---|-------|
| Year 1 | | |
| One of: | | 3 |
| PHYS 1050 | Physics 1: Mechanics (B) ¹ | |
| PHYS 1020 | General Physics 1 (B+) | |
| One of: | | 3 |
| PHYS 1070 | Physics 2: Waves and Modern Physics (B) ¹ | |
| PHYS 1030 | General Physics 2 (B+) | |
| One of: | | 3 |
| COMP 1010 | Introductory Computer Science 1 (B) | |
| COMP 1012 | Computer Programming for Scientists and Engineers (B) | |
| COMP 1020 | Introductory Computer Science 2 (B) | 3 |

| | | |
|--|---|---|
| MATH 1300 | Vector Geometry and Linear Algebra (B) ² | 3 |
| MATH 1500 | Introduction to Calculus (B) ² | 3 |
| MATH 1700 | Calculus 2 (B) ² | 3 |
| 6 credit hours from the Faculty of Arts, which should include the required 3 credit hour "W" course ³ | | 6 |
| 3 credit hours of electives | | 3 |

Hours **30**

| | | |
|----------------------|--|---|
| Year 2 | | |
| One of: ⁴ | | 3 |

| | | |
|------------------|--|---|
| PHYS 2260 | Optics | |
| Physics elective | | |
| PHYS 2386 | Introduction to Quantum Mechanics and Special Relativity | 3 |
| PHYS 2496 | Mathematical Physics 1 | 3 |
| PHYS 2650 | Classical Mechanics 1 | 3 |
| MATH 1240 | Elementary Discrete Mathematics ² | 3 |
| MATH 2720 | Multivariable Calculus | 3 |
| COMP 2080 | Analysis of Algorithms | 3 |
| COMP 2140 | Data Structures and Algorithms | 3 |
| COMP 2160 | Programming Practices | 3 |
| COMP 2280 | Introduction to Computer Systems | 3 |

Hours **30**

| | | |
|--|---|---|
| Summer | | |
| Co-op Requirements (if selected): | | |
| SCI 3980 | Co-operative Education Work Term 1 ⁵ | 0 |

Hours **0**

| | | |
|----------------------|---|---|
| Year 3 | | |
| PHYS 2600 | Electromagnetic Field Theory | 3 |
| One of: ⁴ | | 3 |
| PHYS 2610 | Circuit Theory and Introductory Electronics | |
| Physics elective | | |
| PHYS 3386 | Quantum Mechanics 2 | 3 |
| PHYS 3670 | Classical Thermodynamics | 3 |
| PHYS 3496 | Mathematical Physics 2 | 3 |
| COMP 3170 | Analysis of Algorithms and Data Structures | 3 |
| COMP 3430 | Operating Systems | 3 |

6 credit hours of 3000 and/or 4000 level Computer Science courses

3 credit hours of electives

Hours **30**

| | | |
|--|---|---|
| Summer | | |
| Co-op Requirements (if selected): | | |
| SCI 3990 | Co-operative Education Work Term 2 ⁵ | 0 |

Hours **0**

| | | |
|--|-----------------------|----|
| Year 4 | | |
| PHYS 4680 | Statistical Mechanics | 3 |
| 12 credit hours of 3000 and 4000 level Honours Physics courses, with at least 6 credit hours at the 4000 level | | 12 |
| 12 credit hours of 3000 or 4000 level courses from Computer Science, with at least 9 credit hours at the 4000 level by the end of Year 4 | | 12 |
| 3 credit hours of electives | | 3 |

Hours **30**

Summer**Co-op Requirements (if selected):**

| | | |
|--------------------|--|------------|
| SCI 4980 | Co-operative Education Work Term 3 ⁵ | 0 |
| SCI 4990 | Co-operative Education Work Term 4 (if a 4th work term is selected) ⁵ | 0 |
| Hours | | 0 |
| Total Hours | | 120 |

¹ PHYS 1050 and PHYS 1070 are recommended.

- ²
- MATH 1220 or MATH 1310 may be taken in place of MATH 1300;
 - MATH 1230, MATH 1510 or MATH 1520 may be taken in place of MATH 1500;
 - MATH 1232 or MATH 1710 may be taken in place of MATH 1700;
 - MATH 1690 may be taken in place of MATH 1500 and MATH 1700.
 - Students who have previously completed COMP 2130 may use it in lieu of MATH 1240.

³ As there are no open electives in Year 2 of the program, students should complete the University written English requirement in Year 1. If not completed in Year 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.

⁴ Students are required to take at least one of PHYS 2260 or PHYS 2610.

⁵ When chosen, the Co-operative Option work terms (SCI 3980, SCI 3990, SCI 4980, and SCI 4990 [if selected]) will normally be completed during the Summer Terms following years 2, 3, and 4 respectively.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Co-operative Education

Co-operative Education Option Academic Regulations: B.Sc. (Major) & B.Sc. and B.C.Sc. (Honours)

Co-operative education is a form of experiential learning which integrates the academic education (classroom-based learning) of interested and qualified students with relevant, supervised, and paid work experience (work-based learning) with employers. Co-op students gain valuable skills to guide them through their academic education and prepare them for future careers after graduation.

The Faculty of Science offers a Co-operative Education Option in the following Major programs:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Data Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Psychology
- Statistics.

The Honours programs offering a Co-operative Education Option are:

- Biochemistry
- Biological Sciences
- Biotechnology (As of Fall 2018, admission to the Biotechnology programs has been temporarily suspended. For further information, see the Faculty of Science office.)
- Chemistry
- Computer Science
- Genetics
- Mathematics
- Microbiology
- Physics & Astronomy
- Statistics
- Joint Computer Science – Mathematics
- Joint Computer Science – Physics and Astronomy
- Joint Computer Science – Statistics
- Joint Mathematics – Physics and Astronomy
- Joint Statistics – Mathematics program.

Co-operative education is optional and supplementary to academic requirements of the chosen degree. All regulations governing regular Major and Honours programs apply to the Co-operative Education Option. In addition, the following variations apply:

Entrance

To enter the Co-operative Education Option a student must be eligible to enter the Major or Honours program offered by the department. At the time of application, students must have a minimum Degree Grade Point Average (DGPA) of 2.5 for the Major and 3.0 for the Honours Programs. For Psychology, students must have a minimum Degree Grade Point Average (DGPA) of 3.0 for the Major. Co-op is not available for students in the Honours Psychology Program.

The normal point of entry to the Co-operative Education Option is following the completion of second year in the Faculty of Science. Students seeking admission will submit an application during their second year and complete an intake process with the appropriate departmental Co-op Coordinator. Application deadlines are established by the Science Co-op Office.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Co-operative Education Option. The Science Co-op Office reserves the right to determine and select the best-qualified applicants.

Students admitted into the Co-operative Education Option will complete pre-employment training, including workshops, prior to the start of their first co-op work term. The structure and content of this training is developed by the Science Co-op Office. Attendance and completion of this training is mandatory.

Structure and Sequencing

The Co-operative Education Option consists of both academic terms and co-op work terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major or Honours department.

Each co-op work term can be either four months in duration or eight months in duration, as designated by the Science Co-op Office. An eight

month work term would be counted as the equivalent of two 4 month terms.

Each academic term and each co-op work term will commence in January, May or September.

The sequence of academic terms and co-op work terms is variable to suit the needs of each department, and is designated by the Science Co-op Office in conjunction with each Major or Honours department. All Faculty of Science Co-operative Education Options must end on an academic term.

Students are expected to follow the academic/co-op work term sequence defined by their Major or Honours department from admission through to graduation.

Co-op Work Term Requirements

All Co-operative Education Options require participating students to complete at least three (3) 4-month co-op work terms for a total of a minimum of 12 months' work experience. Each co-op work term is completed with one employer.

Students are required to register in the appropriate co-op work term course and pay the work term fee prior to starting their co-op work term.

Co-operative Education Option students are required to submit a work term report at the end of each co-op work term. These reports are due at times designated by the Science Co-op Office. In order to remain in the Co-operative Education program, a student must obtain a grade of "Pass" for each work term report. The Science Co-op Office will provide students with instructions regarding the content and format requirements of the work term reports.

While on a co-op work term, students are not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the four-year Major program. For students completing an Honours program, the coursework requirements of the Co-operative Education Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Biotechnology, Genetics and Microbiology programs.

Co-operative Education Option students are required to maintain full-time study while registered for an academic term.

To continue in a four year Major Co-operative Education Option, students must maintain a minimum DGPA of 2.50 at each point of assessment; except for students in Psychology where a minimum DGPA of 3.00 must be maintained at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further information. Continuation in the Major Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

To continue in an Honours Co-operative Education Option a student must maintain a minimum DGPA of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Please see department entries for further

information. Continuation in the Honours Co-operative Education Option is also contingent upon satisfactory performance during co-op work terms.

Students may be required to withdraw from the Co-operative Education Option for any of the following reasons:

- Failure to maintain the minimum academic requirements of the Faculty of Science and/or Major/Honours program.
- Failure to maintain the minimum credit hour requirements of the academic term in the co-op option.
- Unsatisfactory performance during a co-op work term.
- Failure to submit a co-op work term report or the submitted report does not achieve a "Pass" grade.
- Failure to observe the policies outlined in university governing documents related to Behavioural Policies and Academic Misconduct.
- Having consulted with the Co-op Director and/or Faculty Advisor, in the opinion of the Co-op Coordinator, the student does not possess sufficient ability, skills, aptitude, attitude, diligence or motivation to successfully complete the Co-operative Education Option.

Students who wish to voluntarily withdraw from the Co-operative Education Option must obtain the written approval from their Co-op Coordinator and the Science Co-op Director. Students must submit their withdrawal request to their Co-op Coordinator and receive approval by the withdrawal dates set by the Science Co-op Office for each co-op work term.

Students are not normally permitted to withdraw from the Co-operative Education Option once they have secured a position for their co-op work term; whether the position was obtained through the Science Co-op Office or through students' own self-directed job search. Enrollment in the applicable co-op course(s) will be maintained and students are responsible for all assessed fees for the duration of the co-op work term and for meeting all academic requirements.

Students who accumulate more than 18 credit hours of failed courses after entering the four-year Major program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Major Co-op program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (<https://catalog.umanitoba.ca/undergraduate-studies/science/#facultyacademicregulationstext>).

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the Honours Co-op program. Students required to withdraw from the Honours program may be eligible to pursue the B.Sc. Major program or the B.Sc. General degree program. Students are also subject to the academic assessment policy found in the Faculty Academic Regulations (<https://catalog.umanitoba.ca/undergraduate-studies/science/#facultyacademicregulationstext>).

Four year Major Co-operative Education Option students who are required to withdraw, or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Honours Co-operative Education Option students who are required to withdraw or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.
